

Chapter 50 - SOLID WASTE

Sec. 50-6. - Storage of refuse.

Every person in charge of any dwelling, business concern or manufacturing establishment shall provide an adequate number of refuse containers in which to store all refuse created on the property. Refuse not stored within a building or a shed shall be stored in the rear yard of the main building.

Sec. 50-8. - Preparation of refuse for city collections; removal of containers.

Persons desiring collection of refuse by the city shall place it in approved containers or bundles at the side of the street or other approved location after 12:00 noon of the day preceding the day scheduled for collection. Empty containers shall be removed from the street the same day that collection is made.
